

HSPD-12 NEWSFLASH

SUBJECT: STATUS OF GSA INTERFACE

Please be aware that the HSPD-12 GSA interface is still turned off at this time. Changes to the interface are being tested extensively and it is expected to be turned back on later next week.

The impact of the interface being down is that records certified in the Agency Certification Portal as well as updates to records already in USAccess will not be pushed over until the interface is turned back on.

While the interface is down, please continue to prepare and certify records in the Agency Certification Portal as well as complete sponsorship of records already in USAccess (for Payroll Personnel agencies).

Please contact the USDA HSPD-12 Help Desk if you have any further questions.
